Welcome to a second season of concerts on two of the most stunning new organs in West Yorkshire.

This series brings together some of the country's most celebrated organists to delight and entertain audiences. Adding a European dimension, international prize-winner Adriano Falcioni of Perugia Cathedral makes a welcome first appearance - not to be missed!

The organ at St Patrick's was built in 2009 by Škrabl of Slovenia and combines the technical brilliance of a modern Classical organ with the warm tones of Central Europe. Leeds Cathedral's new organ is a full bodied Romantic instrument, built on the Edwardian gravitas of the original 1904 instrument with a touch of magic provided in the reconstruction of 2010 by Klais of Bonn.

I hope this will provide some thrilling musical experiences!
